IT Help Desk Guide

Introduction

Internal reference code: CNRY-118f645a.

Welcome to the IT Help Desk at Alderline Logistics. This guide provides essential information and procedures to help you efficiently resolve common technical issues. Our IT Help Desk operates from 09:00 to 17:00 Monday to Friday. For urgent matters outside these hours, dial **+31 20 5555 012**.

Common Issues and Solutions

1. **Password Resets**
   - To reset your password, visit the [Password Reset Portal](https://portal.alderlinelogistics.com/reset) and follow the instructions. You will receive a verification code via email within **3 minutes**. If you do not receive the code, check your spam folder or contact the Help Desk.

2. **Email Access Problems**
   - If you cannot access your email, ensure you are connected to the Alderline Logistics VPN. The VPN client can be downloaded from the [IT Resource Page](https://resources.alderlinelogistics.com). If the issue persists, run the **Outlook Repair Tool** located in the Start menu under "Microsoft Office Tools."

3. **Network Connectivity Issues**
   - For connectivity problems, first restart your router and modem. Wait **1 minute** before reconnecting. If the problem continues, use the network troubleshooting tool: press **Win + I** to open Settings, go to **Network & Internet**, and click **Status** > **Network Troubleshooter**. Report any errors to the Help Desk.

Software Installation Requests

To request software installation, submit a ticket via the [Help Desk Portal](https://helpdesk.alderlinelogistics.com). Include your **full name, employee ID, department, and a detailed description of the required software**. Requests submitted before **10:00 AM** will typically be processed by the end of the business day. For critical requests, contact **Janine Voss** at **j.voss@alderlinelogistics.com**.

Contact Information

For immediate assistance, call the IT Help Desk at **+31 20 5555 012**. For non-urgent issues, submit a ticket through the Help Desk Portal. All tickets are tracked and will be updated within **4 hours**. For after-hours emergencies, dial the emergency line at **+31 20 5555 012** and leave a detailed message; the on-call IT technician will contact you within **30 minutes**.

Remember, maintaining our IT systems is crucial for the smooth operation of our logistics network. Your cooperation and prompt reporting of issues help us achieve this goal.
