Visitor Policy

Visitor Policy

Internal reference code: CNRY-9d2819d9.

Effective Date: 1st June 2024

Policy Owner: Human Resources Department

Introduction

This document outlines the procedures and guidelines for visitors to Alderline Logistics premises. Our goal is to ensure the safety, security, and efficiency of our operations while providing a welcoming environment for guests.

Pre-Visit Registration

All visitors must register their intent to visit Alderline Logistics at least 24 hours in advance. This can be done by contacting the Reception Team at **reception@alderlinelogistics.eu** or by calling **+31 20 5555 123**. Visitors should provide the following information:

- Full name
- Company name
- Purpose of visit
- Estimated time of arrival
- Contact number

Upon receiving this information, the Reception Team will process the registration and prepare a visitor badge.

On-Site Procedures

Upon arrival, visitors must report to the main reception area. They will be required to present a valid photo ID and sign the Visitor Logbook. A visitor badge must be worn at all times while on the premises. The badge clearly displays the visitor's name, the time of entry, and the host's name.

Visitors are allowed to access only the areas pre-approved by their host. Any deviation from the approved route must be authorised by the Security Team, reachable at **+31 20 5555 456**.

Security and Conduct

For security reasons, visitors are not permitted to carry any bags, notebooks, or electronic devices into our facilities unless explicitly approved by the Security Manager, **Janek Kowalski**. All personal items must be left in the designated locker area or with the Reception Team.

Visitors must adhere to our dress code, which requires business casual attire. Proper footwear is mandatory, especially for warehouse tours. Visitors should maintain a respectful and professional demeanour at all times.

Emergency Procedures

In the event of an emergency, visitors should follow the instructions of the nearest staff member or the Emergency Warden, **Lena Müller**. Emergency exits are clearly marked, and fire drills are conducted quarterly. Visitors should familiarise themselves with the nearest exit upon arrival.

Conclusion

We appreciate your cooperation with these procedures to ensure a safe and productive visit to Alderline Logistics. For any questions or clarifications, please contact the Human Resources Department at **hr@alderlinelogistics.eu**.
