Headcount Plan 2026

Headcount Plan 2026

Internal reference code: CNRY-89ac4cee.

Overview

This document outlines Brightmoor Foods' strategic headcount adjustments for 2026, aligning our workforce with operational needs and growth objectives. Our current global headcount stands at 1,850 employees as of Q3 2025. The plan focuses on optimizing our talent pool across key departments to support our expansion into new markets and enhancement of existing product lines.

Department-Specific Adjustments

Research & Development (R&D)
To bolster our innovation pipeline, the R&D department will see an increase of 20 positions, growing from 150 to 170 employees by Q2 2026. New hires will include 10 food scientists, 5 flavorists, and 5 product developers, focusing on plant-based and organic product lines.

Marketing
The Marketing team will expand by 15 positions, increasing from 120 to 135 employees by Q4 2026. This growth will include 8 new digital marketing specialists, 4 brand managers, and 3 market researchers to support our upcoming campaigns in the DACH region.

Production
In response to increased demand, the Production department will add 25 positions, growing from 600 to 625 employees by Q1 2026. These new roles will include 15 machine operators, 5 quality control specialists, and 5 maintenance technicians.

Human Resources
To support these expansions, the HR department will increase by 5 positions, growing from 50 to 55 employees by Q3 2026. New hires will include 2 recruitment specialists, 1 training coordinator, and 2 HR business partners.

Timeline and Implementation

- **Q4 2025**: Begin recruitment for R&D and Marketing roles. Target to fill 50% of new positions.
- **Q1 2026**: Complete recruitment for R&D and Marketing. Start recruitment for Production roles.
- **Q2 2026**: Fill remaining Marketing positions and 50% of Production roles.
- **Q3 2026**: Complete recruitment for Production and begin HR recruitment.
- **Q4 2026**: Finalize all new hires and initiate onboarding programs.

Budget Allocation

The total budget for these headcount adjustments is EUR 2.5 million, allocated as follows:
- R&D: EUR 1.2 million
- Marketing: EUR 750,000
- Production: EUR 650,000
- HR: EUR 400,000

These investments are expected to drive a 15% increase in operational efficiency and support a projected revenue growth of 10% by the end of 2026.
