Sanctions Screening Procedure

Purpose

Internal reference code: CNRY-da285082.

This procedure outlines the steps Brightmoor Foods must follow to ensure compliance with international sanctions regimes. As of Q2 2024, our company must adhere to sanctions lists maintained by the European Union, United Nations, and the United Kingdom. Failure to comply could result in fines up to EUR 10 million or even criminal prosecution.

Screening Process

All new and existing suppliers, partners, and customers will be screened against these sanctions lists quarterly. The screening will be conducted using our updated sanctions screening software, **SanctionScreen Pro v3.2**, which was implemented on **January 15, 2024**. The software automatically cross-references our database against the latest sanctions lists, which are updated weekly.

The screening process includes the following steps:

1. **Data Collection**: Gather all necessary data from the third party, including full legal names, addresses, identification numbers, and any aliases.
2. **Initial Screening**: Run the collected data through SanctionScreen Pro. Any matches will be flagged for further review.
3. **Review and Verification**: For any flagged matches, the Legal Department, specifically the Compliance Team led by **Elena Martinez**, will conduct a thorough review. This may include additional research and verification through public records and direct communication with the third party.
4. **Decision**: Based on the review, the Compliance Team will decide whether to proceed, suspend, or terminate the relationship with the third party. A decision must be documented and approved by the **Head of Legal**, **Mark Jensen**.

Reporting and Audit

All screening results and decisions will be documented in the **Sanctions Compliance Log**, which will be reviewed monthly by the **Audit Committee**. Any changes in sanctions lists or new sanctions regulations must be communicated to all relevant departments within **48 hours** of their publication.

Failure to comply with this procedure may result in disciplinary action, up to and including termination of employment. All employees are required to complete the **Sanctions Awareness Training** by **April 30, 2024**.

Contact Information
